TruPayroll has become an Environmentally Certified Sustainable Business

TruPayroll (<https://www.trupayroll.com/>), a relationship-driven, full service, payroll provider, located in Marco Island, Florida has pursued and attained the world's premier environmental sustainability certification, the Edenark Group ISO 14001.

The program, for organizations that care about the environment and want to be part of the solution, not part of the problem, allows companies to progressively improve at a pace that works for their needs. It helps the organization define how it interacts internally, externally, and with the environment. It incorporates energy/waste/water, employee health and performance enhancement, community involvement, procurement and suppliers, compliance and regulations, emergency/security, and stakeholder engagement. Benefits include creating a culture of continual improvement, stakeholder engagement, lower costs, higher revenues and profits, improved employee performance, and..... doing the right thing for the environment and current and future generations.

"I love helping people beyond my core corporate service. We strive to have a positive impact on our clients' personal lives, their businesses, and their community," said Al Wagner, CEO of TruPayroll. "This desire to help others is what caused me to become passionate about sustainability. I want to be part of the global solution by making an impact in my community, for my family and my clients' families. The Edenark Group ISO 14001 program gives me that platform," added Wagner.

"When an organization pursues, and attains, the Edenark Group ISO 14001 sustainability certification, they are not just doing it to see their costs go down and revenues and profits go up. They are setting a higher bar for their organization and sending a signal to all those around them," says David Goodman, CEO of Edenark Group. "They are agreeing to adhere to the world's Gold standard for sustainability certification; are choosing to be a leader and part of the solution, not the problem; and are joining an elite fraternity of over 300,000 organizations, in over 150 countries, that have committed to continually improving in every way."
