**TruPayroll will Celebrate Earth Day as an Environmentally Certified Sustainable Company!**

TruPayroll (<https://www.trupayroll.com/>), a relationship-driven, full service, payroll provider, located in Marco Island, Florida is excited to celebrate Earth Day 2022 as an Environmentally Certified Sustainable Company and invites your company to join us in our effort to protect the environment while we grow our businesses.

Earlier this year, TruPayroll attained the Edenark Group ISO 14001 Environmental Sustainability Certification, which will help the company define how it interacts internally, externally, and with the environment.

The certification incorporates energy/waste/water, employee health and performance enhancement, community involvement, procurement and suppliers, compliance and regulations, emergency/security, and stakeholder engagement.

“The TruPayroll team loves helping people beyond our core corporate services. That is a key component of our culture. Being environmentally certified sustainable on Earth Day is a very big deal for the entire team as it validates what we believe – that we can work hard and grow our business while also protecting our community, our clients and our planet,” said Al Wagner, CEO of TruPayroll.

“We are already working with other organizations that have the same core beliefs. We purchase services via WholeSale Payroll, which is also certified sustainable (<https://edenark.com/another-prep-for-earth-day-wholesale-payroll-has-become-an-environmentally-certified-sustainable-company/>) and they purchase services from DataSetGo, which is also certified sustainable (<https://edenark.com/datasetgo-has-become-an-environmentally-certified-sustainable-company-under-the-edenark-group-iso-14001-program/>). It is wonderful to work with organizations that understand that we can work hard, serve our clients, grow our companies, live our lives to the fullest, and also protect our communities and our planet,” added Wagner.
