

Unlimited Auto Wash will pursue Environmental Sustainability Certification for all Locations

Unlimited Auto Wash Club ( <a href="https://www.unlimitedautowashclub.com/">https://www.unlimitedautowashclub.com/</a>) is a 100% Full Service Hand Car Wash that serves South Florida via seven locations and over 175 employees. It cares deeply about the environment and the community it serves, and has decided to pursue the Edenark Group ISO 14001 environmental sustainability certification program for all seven locations.

The Edenark Group ISO 14001 is the world's premier environmental sustainability certification program and allows SMEs (small to mid-sized enterprises) the ability to attain the world's most popular environmental certification standard via a program designed and priced specifically for them. This allows an organization to validate, via 3<sup>rd</sup> party audit against the world's top standard, its environmental / sustainability / green / eco-friendly actions.

The program, which allows companies to progressively improve at a pace that works for their needs, helps the organization define how it interacts internally, externally, and with the environment. It incorporates energy/waste/water, employee health and performance enhancement, community involvement, procurement and suppliers, compliance and regulations, emergency/security, and stakeholder engagement. Benefits include creating a culture of continual improvement, stakeholder engagement, lower costs, higher revenues and profits, improved employee performance, and...... doing the right thing for the environment for current and future generations.

"We are a leader in our space and being the first environmentally certified sustainable car wash in the region was important to us and our employees," said Kevin Dalton, CEO of the Unlimited Auto Wash. "The world needs organizations to commit to being sustainable; not mislead consumers via greenwashing. We have seven facilities and all seven will get certified."

The seven individual locations and their statements can be found here –

- Palm Beach Gardens / Northlake <a href="https://edenark.com/unlimited-auto-wash-of-palm-beach-gardens-fl-will-pursue-sustainability-certification-compliance/">https://edenark.com/unlimited-auto-wash-of-palm-beach-gardens-fl-will-pursue-sustainability-certification-compliance/</a>

"When an organization pursues, and attains, the Edenark Group ISO 14001 sustainability certification, they are not just doing it to see their costs go down and revenues and profits go up. They are setting a higher bar for their organization and sending a message to all those around them that may be claiming to be environmentally-supportive, but are in truth greenwashing by not validating their actions under a global 3<sup>rd</sup> party certification," says David Goodman, CEO of Edenark Group. "Companies who are agreeing to adhere to the world's Gold standard for sustainability certification are allowing their actions to be reviewed; are choosing to be a leader and part of the solution, not the problem; and are joining an elite fraternity of over 300,000 organizations, in over 150 countries, that have committed to continually improving in every way."
